ALERE FLAMMAM

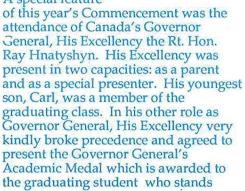

NEWSLETTER OF THE LISGAR ALUMNI ASSOCIATION VOLUME VIII NUMBER 2 FALL 1991

1991 Commencement

n June 26, 1991, Lisgar celebrated its Annual Commencement outside on the Mall between the North and South buildings. Most of the 173 graduates were in attendance and enjoyed a terrific ceremony under sunny and hot conditions. Approximately 700 parents, relatives and friends joined us

to recognize the 1991 Graduates.

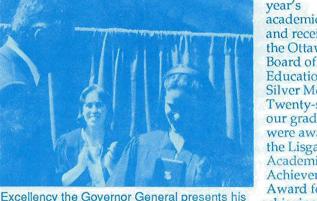

We were delighted to have former Head of English, Mr. Walter Mann, with us to present the Walter B. Mann Award as well as Mr. René Charron, former Head of Modern Languages, to present the René Charron Award. A special feature

highest in academic studies. This year's recipient was Angela Logan who achieved an average of 98.2%. Needless to say, Angela and Lisgar were very pleased to receive this generous participation by His Excellency.

Statistically speaking, 17 of the 173 graduates achieved an average of 90%

or above on the year's academic work and received the Ottawa Board of Education Silver Medal. Twenty-six of our graduates were awarded the Lisgar Academic Achievement Award for achieving an average of 80% or above on the

His Excellency the Governor General presents his medal to Angela Logan while valedictorian Devon Curtis applauds.

year's work. One hundred and five graduates were awarded the Ontario Scholarship. Many graduates received entrance scholarships from universities and one graduate received a national scholarship. Twenty graduates a ceived the prestigious Canada Scholarship worth \$8,000. The Lisgar tradition of academic excellence was sustained and maintained through the very fine achievements of the 1991 graduating class.

TIME FOR MEMBERSHIP RENEWAL

The Lisgar Alumni Association would like to remind all members that your membership fees for 1992 are now DUE. Please fill out the enclosed membership form and send us your cheque or money order made out to the Lisgar Fund for \$10 per membership plus any donation. Consider a gift membership for an old Lisgar friend. Tax receipts for donations

will be issued.

We need a much greater renewal rate than the current 25% in order to continue to mail the newsletter to all Alumni. With mailing costs approaching \$1,000 per issue plus printing costs, we need your help.

Please send in your renewal form NOW!

Greetings:
After chatting with Mr. Doug
Arrand in June, I decided it
was long overdue for me to
join the Lisgar Alumni
Association.

My mother (also a former Lisgarite) and I took a stroll through those memory filled halls and perhaps at a later date I will share some of those memories with the *Alere Flanmam* readership...

I pursue a full time career as an entertainer ("Terry Reilly is a Teddy Bear's Picnic," St. John's, Nfld.) and enjoy it impensely. I was disappointed not to have run into many former Lisgarites when I performed at the Ottawa-Hull Children's Festival, but then you didn't have much notice I'd be around.

If my performance schedule allows, I hope to be able to attend the 150th Anniversary.

I would welcome hearing from former classmates at the ... address (below). I might be remembered for a number of school concerts I was in or as the weird little kid who used to strum his guitar and sing in the tunnel early in the morning. Warmest Regards,

TERRY REILLY 7 Newtown Road, St. John's, Nfld. A1C 4C9

Just today I learned that there has been a Lisgar Alumni Association in existence for some time. Lexie (Park) Pettus sent me her copy of *Alere Flammam* ...

I'm sure I must be one of the few "old pillars" of the staff still alive. I taught in the French Department from 1929-1954 and had the same room, old #7, for 23 years. The students and parents of 1953 will surely remember my efforts in producing the annual concert "The Echoes of the Twenties." It was the first time there had been three nights performances to a sellout each

night and thus the Athletic Department and the Library benefitted there from. I have many happy memories of my years at Lisgar - reading through the spring edition (91) of Alere Flammam I see many familiar names. One of the highlights of my early years there was the year Peter Chance won the Olympic gold medal for figure skating ...

There is a gentleman, Al Meekes, who is a member of my husband's Kiwanis Club and attended Lisgar and graduated in '39. We have met and had a good chat about Lisgar days.

Best wishes for a great success in your proposed efforts for the

Sincerely, RUTH "Hills" DAVIS London, Ontario

150th Anniversary.

Congratulations on continuing to produce an interesting and informative publication which keeps members up-to-date on Lisgar news and also on former Lisgarites. I was very sorry to hear of the sudden death of Bob Virr, who was a fellow Lisgarite in the mid-thirties. On the other hand, it was interesting to read letters from others now living nearby ... Peter Chance in Sidney, B. C. and Greg McPherson in Wenatche, Washington, U.S.A. (just south of Victoria on the mainland).

Our best wishes to all the Alere Flammam staff. Keep up the good work.

P. S. Just as I was about to type this letter, I received a call from Peter Chance of Victoria, who had been trying to "touch base" with me for some time ... We had a great old chat and have planned to get together ... We didn't know each other at Lisgar, but we do know a lot of the same people. I graduated in 1936 and he in 1939. Without the newsletter, this never could have happened!

Sincerely, MARGARET E. HANLON '36 Victoria B. C.

KOREAN WAR VETERANS PLAQUE UNVEILED

A new feature has been added to Lisgar Collegiate's Memorial Hall - the Korean War Veterans Plaque. The mounting of the plaque and the brass name tablets is the culmination of many hours and years of work by the Veterans Committee of the Alumni Association headed by John Dunfield.

At this time of year when we all pause on November 11th to remember the sacrifices made by many of our family, friends, colleagues in the years gone by, it is fitting that the Korean War Veterans now have a place of honour in Memorial Hall, joining their colleagues from World War I and II.

Alere Flammam is the semi-annual newsletter of the Lisgar Alumni Association. For more information write:

Alere Flammam Lisgar Alumni Association 29 Lisgar Street Ottawa K2P 0B9

ALUMNI UPDATE

Do your former classmates know what you're up to? Do you know what your former classmates and/or teachers are doing now? Drop us a line and we'll let the world know! We welcome all contributions, big or small.

The following Lisgarites welcomed new family members:

BIRTHS

RUNYON, DAMON ('76) and Jean, (twins for sister Sarah) Leah Cassandra and Matthew Taylor on September 26, 1991;

SHAINBAUM-POLLACK, TOBY ('77) and Michael, (a sister for Noah) Rebecca Gabrielle Debra on July 14, 1991;

STOQUA, PATRICK ('76) and Elizabeth (née Gilmour), (their first child) Jennifer Michelle on September

IN MEMORIAM

FAWCETT, HAROLD BRUCE passed away on June 28, 1991. He was the husband of Lois Britton and loving father of Blair, Vicki and Bruce. Harold was a member of the Ottawa Police Force and rose to the rank of Staff Inspector. Harold attended Lisgar in the 1930's.

GREENBURG, IRVING passed away on January 23, 1991. A Lisgar graduate who went on to be a prominent Ottawa businessman and member of the community, he fondly remembered his years at Lisgar. His widow, Shirley E. Greenburg, noted that "the teachers and the students both made an indelible impression on him that motivated him throughout his lifetime".

HILL, MARY (née MALMBERG) passed away last March after a long battle with cancer. Mary attended Lisgar from 1956-1958 (10G and 11H) and went on to a career in education including a term as President of the Ontario Public School Teachers

Federation (1984-1986). Mary will be remembered for her commitment to professionalism, being a team player who saw the best in people and for her leadership.

ROBERTS, WILLIAM (Bill) passed away suddenly on September 22, 1991. Bill, a former Lisgar graduate and teacher, was the Head of Dance and Drama at Canterbury High School. In his high school years at Lisgar, he was heavily involved in sports, pole vaulting and football. He is survived by his wife Laurie Driscoll and his young son Justin. He will be remembered for his strong command of language, his commitment to students and his insight.

SPARKS, IVAN JOSEPH HENRY passed away on May 24, 1991 in his 74th year. He was beloved husband of J. Lorraine Sparks (née ROGERS) and father of William, Susan and John. Ivan was a member of one of the founding families of Ottawa and Sparks Street is named after the family. Ivan attended Lisgar in the 1930's.

NOTEWORTHY

Sharon Cardash ('87) has been named 1991 recipient of the John H. Moss Memorial Scholarship at University of Toronto. The scholarship is awarded annually by the U. of T. Alumni Association to an exceptional student, graduating from the Faculty of Arts and Science, who exhibits allround achievement in both academic and extra-curricular activities. The \$12,000 award is one of the largest and most prestigious awards granted to a student at U of T.

Sharon has completed her four year undergraduate degree, specializing in international relations, at University College, U. of T. and is now studying for her M.Phil ininternational relations at Cambridge.

Adam Logan ('91) is studying mathematics at Princeton University. The 16-year-old Adam placed ninth

out of 450,000 North American math students taking part in the U.S. Math Olympiad. Adam placed third out of 140,000 in the senior level of the Canadian Mathematics Competition, which took place last March.

Dr. Sarah Elizabeth Capes ('85) graduated magna cum laude from the University of Ottawa Faculty of Medicine on June 10th, 1991. Sarah was awarded the Department of Obstetrics and Gynecology prize for the highest standing in Obstetrics and Gynecology.

MARRIED: Dawna Duff and James McLeish, June 29, 1991. Dawn was a founding member of the Lisgar Quartet and played in the orchestra for five years.

Lisgar Graduate Rizwan Haq chosen for U.S. DOE Science **Program**

Rizwan Haq, a Lisgar graduate and University of Toronto freshman, was one of 59 students chosen to participate in the United States Department of Energy's (DOE) High School Science Honours Research Program at Oak Ridge National Laboratories (ORNL). Students were selected from 49 states and eight countries including Canada. ORNL is one of five energy-related research and production facilities managed by Martin Marietta Energy Systems for the U.S. DOE.

During the two-week program at ORNL last summer, the students conducted field and laboratory research. Rizwan Haq's research project involved studying the effects of carbonate on the absorption of uranium onto colloidal ferric hydroxide.

The Staff of Alere Flammam extend our best wishes to Rizwan in his studies at U. of T. A special note of thanks for all Rizwan's hard work last year with computer typesetting, layout and production of our newsletter.

Por the past three years, Lisgar has been involved in an ambitious educational

COUNTDOWN

TO

programme called the International Student Space Simulation. Originating in Texas, the programme requires schools to plan and execute a 72 hour simulated space mission each year. It began in 1988 at McCullough H.S. in Houston and was so successful that they decided to expend it. They invited a Canadian school (Lisgar) and a group of Japanese students to join them for the 1989 mission. Six of our students travelled to Houston that year and stayed for three weeks, making important contributions to the mission and learning much about science, technology, problem-solving, teamwork and American and Japanese culture. Since this modest beginning, the programme has grown to include over 50 schools across North America, as well as students from Mexico, Japan and the Soviet Union. Most of these schools design and build their own "habitat" (a lunar base or space station) in which their "astronauts" conduct their missions under the guidance of mission control teams.

The International Missions all take place at the same time and many new features have been added, such as continent-wide teleconferences with astronauts and other individuals associated with NASA or the Canadian Space Programme. A school in Indiana recently conducted a kind of satellite communications experiment, sending a 70-foot helium-filled balloon up to about 100,000 feet carrying television cameras and radio equipment. Lisgar student Vikram Bajaj was almost able to set up our participation but we were prevented from taking part by a technical difficulty - the balloon did not rise quite high enough to allow the T.V. signal to "see" Ottawa round the curvature of the earth. The same Indiana school arranges for some of its students to experience the way astronauts prepare for weightlessness by linking up with a Scuba diving club and teaching the students diving techniques. They then actually perform construction tasks underwater in the deep section under the high diving board at a

BLAST OFF

local pool. The potential for extensions to the Simulation Programme seems to be growing exponentially.

Lisgar has sent a team to McCullough High School each year and last year sent a team to participate in a mission conducted by Externat Sacré Coeur, a French private school in Rosemère, Québec. Our students have, however, frequently expressed a desire to run

their own mission as well.

On the initiative of last y e a r 's participants, a

proposal to build a simulated habitat here in Ottawa was presented to our The proposal, Board in June. including a request for Board funding, educational rationale and plans for the habitat came from Lisgar students but the habitat was to be for the use of any and all Ottawa Board schools. The students also played an important role in presentations to various Board committees that were necessary prior to the approval of the project. Our students prepared carefully and impressed superintendents and trustees with their enthusiastic and professional presentations. The Board saw the proposal as one that would have value to many students at both secondary and elementary levels and approved the project.

Without another key factor, however, the proposal would not have been successful. Lisgar has neither the facilities nor the space for such a habitat. Fortunately, an innovative administration and staff at Highland Park High School came to the rescue by agreeing to build the habitat and become the mission team's construction specialists. Lisgar and Highland students will make up the team that will "launch" on February 29, with many other schools across North America and around the world. The habitat was partly designed by Lisgar students (Kirsten Weisz and former student, David Junk) and will be set up for the mission at the Sir John A. MacDonald Centre near Greenbank

More than 50 Lisgar students are enthusiastically preparing for the mission outside of class time and we expect that many others will become involved through their science, art and other classes.

Dunlop Public School will also be using the habitat to conduct their own mission this year. Dunlop is in the process of planning their entire school year around a space theme. The highlight of the year will be Ontario's first elementary school mission in May. It is expected that Lisgar students will act as consultants on this mission.

Auditorium Lighting Console Updated

The subject of the above photograph was once a very familiar sight for many of our alumni. Former members of the Lisgar Audio-Visual Aids Committee will recognize it as the auditorium stagelighting control console, manufactured and installed by the Strand Electric Company in 1965. Research has shown that a number of our students assisted with the design of the lighting system, which was the first of its type in Canada and, at the time, considered to be state-of-th- art. Time, however, has taken its toll and technology has advanced immeasurable; so after 26 years of faithful service the system is being retired. The "Old Strand System" (as our present generation of students refer to it) will be replaced this fall with a modern digital electronics version, providing us with many advanced features including programmable memory and special

Unfortunately, no money is available at this time to replace our inventory of lighting fixtures which is also showing the effects of age and literally hundreds of productions. However, we are hoping the school board will see fit to put money aside for this in the next budget year, so that we will once again have a state-of-the-art system in place for the 150th. Neil Petrie

Tall tales and photos wanted

We want to remind our readers that Joan Finnigan '44 has started the research for the 150 th Anniversary History of Lisgar Book. She would like to hear from anyone with archival material (especially old photographs) and anecdotes and tales from their days at Lisgar. The more material and stories she receives the better the book will be so please pass on whatever you may have to Joan c/o Lisgar Collegiate.

LISGAR NOTES

Modern Issues Club The World Affairs Club has changed it's name to the Modern Issues Club. On Monday, October 7th, Roberto Zuazo gave a talk and slide show on the politics and culture of Brazil's rain forest. In the near future, they hope to have Jean Chrétien address a special school assembly on the future of Canada.

Outdoor Education There are two classes totalling 44 students. Activities included a four-day hiking trip to Mount Washington, N. H. in late September. It was describes as "a great experience, including -5C and SNOW!"

Outer's Club Activities planned include a three day hiking trip to Mount Mansfield, Vt. over the Thanksgiving Weekend.

The Lisgarwrite Congratulations to the staff of Lisgarwrite for winning the Ottawa Citizen's 1991 Award for best high school newspaper.

Writers Congratulations to the following Lisgar students for winning in the Carleton University 1991 high school writing competition: Andrew Rimas - fiction; Eric Ward and Angela Logan - essays.

Ottawa-Carleton French-Contest — May 1991 For the 18th consecutive year, a team of Lisgar students won the core French category trophy. Team member Angela Logan placed first overall, Amanda Bell second and Jyothi Kumaran fourth.

In a surprise turn of events the Lisgar team, in the immersion category, also won a first place trophy. Individually, Katie Doe placed first, Krista Lynes second and Susan Chandler fourth.

Track and Field The Lisgar track and field team (1990-91) won the Ottawa High School Athlete Association (OHSAA) championships as well as the National Capital Secondary School Athletic Association (NCSSAA) championships. From there, Lisgar sent 35 athletes to the Eastern Ontario championships in Brockville with eight qualifying for the all-Ontario championships (OFSAA). The season was topped off with excellent performances by all athletes at OFSAA with Sean Burges taking home a gold medal in the senior boys triple jump.

Ottawa-Berlin Exchange Lisgar's third two-week student exchange with Berlin, Germany, based on billeting was completed September 25. Sixteen students from our school are looking forward to going to Berlin next April under the guidance of Mr. Paryas to immerse themselves in the German culture and language.

Junior Girls' Basketball The 1991 edition of the junior girls' team promises to be a very strong one. As of early October, their record is five and one, and the girls are improving their skills daily. Led by veteran players Cara Waterfall, Irene Vandoros, Bhic Co Nhieu and Victoria Horton, the team hopes to be a solid contender for the city championship by season's end.

Senior Boys' Basketball Ten returning players from last year's contending team along with several transfers and promising juniors should make the senior basketball team very competitive this year. Although 6'10" Marc Engfield, who is now playing at Ottawa University, will be difficult to replace, the team should have better scoring balance and more experience than the 1990-91 squad.

Two minutes thought for Canada's most treasured value — freedom

Tovember 11 is a day of the year which all Canadians recognize as a special day of remembrance, yet I suspect each one of us looks upon it in some very personal manner. For the veterans of the two World Wars and Korea, it is a time to remember comrades and the tremendous accomplishments and sacrifice made in those

difficult years. For those whose parents and grandparents were so much a part o. Canada's historic past, it is a time to be both grateful and proud of their contribution

and the country they helped forge. For those who are new Canadians, it is a time to think of the opportunities available to them and of the people who struggled so hard yesterday to provide that

freedom for today.

Freedom is without doubt the most valuable possession we have. But, like any other value, there are those who for whatever reason want to take it away from us. The question then is very simple — is it worth fighting for, each in our own way? Quite frankly there is no doubt in my mind that the young Canadians of today are as dedicated to peace and freedom as those Canadians of similar age who went off to distant lands throughout the past 75 years in search of the same ideal.

Time have changed since those horrific days of global war and, with any luck at all, we will never return to them. But since the Korean war, Canadians have continued to participate actively in the "peace movement". Through the economic and military strength of NATO, the Western World has enjoyed half a century of relative peace and security. The United Nations

has provided throughout its history an excellent forum for peaceful negotiation and resolve which, admittedly not perfect, has helped to defuse confrontation with the prospect of terrible consequences. The Organization of American States (OAS), of which Canada is a relatively new but vocal member, is designed to encourage peace and

stability in the Western
Hemisphere and, as we are all aware, is attempting just that at this moment in Haiti.
And throughout the past 40 years, more than 80,000 Canadians

have actively participated in over 25 peacekeeping missions around the world.

It is, therefore, not difficult to recognize that we have a wonderful heritage in this country — a heritage built by people from several origins and ethnic groups. A heritage arrived at often through individual sacrifice and just plain hard work. The danger, of course, is that we become complacent and simply let it slip through our fingers without fully realizing the alternatives.

The challenge then lies categorically with us — your generation and mine —to ensure the sacrifices and dedication of the past continue to form the foundation for the future. Therefore, when Canada stands quietly still for two minutes of silent thought on November 11, let it be a clear and resounding signal to the world of our determination to preserve that most treasured value — our Freedom.

Michael J. Houghton Lisgar 1960 Col. M. J. R. Houghton, C.D. is currently Director of Peacekeeping Operations for DND.

The Official School Crest

This year, 1932, saw the adoption of an official school crest. It seems incredible that in the ninety years of its existence Lisgar has overlooked so important a feature. Immediately this matter was brought to the attention of the Students' Council, plans were made to repair the deficiency. A contest, sponsored by the Council, was organized among the student body, and designs were solicited. After several weeks the committee appointed for the purpose, having examined the crests received, submitted five to the Council and by a process of elimination the most satisfactory one was found. Two requisites of the crest, simplicity of design and distinctiveness of appearance, were kept in mind in making the decision.

We congratulate Robert Laughton, the designer of the successful crest, which combined these two features, and join with the Students' Council in the hope that, before long, every member of the school will be wearing a

Lisgar crest.

At Home

A most delightful dance party was held in the Boys' gymnasium on December 22nd, when Lisgar students of the Middle and Upper School were "at home" to recent graduates and friends. Over two hundred guests were received by Principal F. A. and Mrs. Stuart, Mr. and Mrs. Dunlop, Miss M. Shaver, Mr. G. E. Ellis and Frank Corrigan, president of the school.

Irresistible music was played by Ken Campbell's orchestra, and there were many favourable comments about the decorations. Ye old reliable quartette - Tom Skelly, Norm Campbell, Frank Corrigan and Dick Bray succeeded in creating a most artistic setting for the affair, carrying out their ideas in flags, red and green streamers, and a profusion of gaily decorated Christmas trees.

Further evidence of their magic touch was revealed when the guests made their way to the Roof Garden (i.e., the Girls' Gymnasium and the Art Room) at 11.00 p.m. for refreshments. Red tapers in sliver holders shed a soft light over the small tables, and trim Lisgar cadets were in attendance. Mrs. B. Lewis and Miss I. C. Brown arranged the details of this essential feature of the party. They were assisted by an energetic committee - Mary Ogilvie, Mavis Berry, Elinor Alford, Irene Coplan, Ted Eligh, Bob Dunn and Angus McMorran.

continued on next page

Sixy years ago in the Vox continued

Mr. J. W. Strader, acting as Treasurer, helped the committee to balance their

budget.

We wish to thank everyone who helped in any way to make possible one of Lisgar's most charming social functions.

The New Medal

A change in the design of the medals which are awarded annually for general proficiency and for various other academic honours has been anticipated for several years. This year our expectations were realized and the new design won immediate acclaim in the school.

The custom of exemplifying abstract virtues by the use

of concrete
symbols has
ever been a
popular
one. This
custom
probably
reached
its height
in the
mediaeval
science of
heraldry and
though the actual

need of this practice has largely disappeared, the sentiment still persists and the granting of medals, and more, the winning of medals, which have a particular significance, remains as popular and as common a practice as it ever was.

The designers of this particular medal endeavoured to suggest in its symbolic design the work done by the schools. The following interpretation might be made of

the various details:

The youthful figure, crowned with laurel, signifies youth triumphant or victorious youth, gazing forth on the world in clear-eyed confidence. The books, of course, signify knowledge; the winged wheel, progress and achievement; while the well-known "Alere Flammam" reminds us of our duty to keep forever burning the lamp of truth and knowledge. If one were to invoke the muse in an attempt to epitomize the foregoing explanation, probably something like the following couplet would result.

Knowledge, Virtue, Vision, Hope; Eagerness with life to cope.

Special Donations Morna McLeod has donated a Stradivarius Model Cello dated 1713

On behalf of the Lisgar Fund directors, I would sincerely like to thank our financial contributors. Your generous donations have played a critical, "bridging" role in helping to secure for the school a fog machine for the Dramatic Arts people and modern B-ball backboards for our physical education classes and school teams.

— John Boehmer
